How to Use Machine Translation
TI version 10.6

TRIAL INTERACTIVE

APPLICABLE TO:

- ● Admin
- ● Manager
- ● Editor
- ○ Reader

- ● Collaborate
- ○ eISF

Machine Translation must be enabled in room settings first, and it use will only be possible on PDF documents that have been through the OCR process.
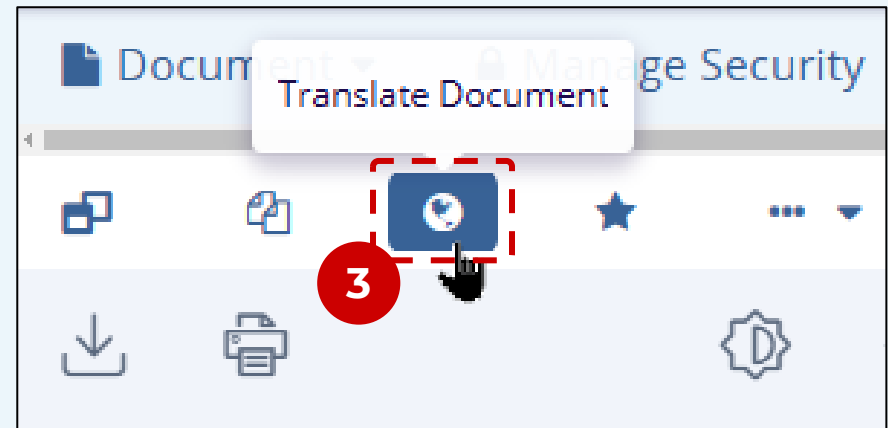

**1** Navigate to the **Documents** module.

**2** Locate the document you wish to translate, and enter **Document View**.

3 In the ribbon above the document, click **Translate Document**.

4 Select the **language pair** for translation.

TRANSPERFECT
LIFE SCIENCES

5 Click the **Translate** button to display the document text in the target language.

6 You can **download** the translated text clicking the button located at the right of the dialog box.
